PROFILE SUMMARY

B.Sc. Data Science & Economics student at FLAME University with a focus on backend-oriented web development and AI automation. Experienced in building and contributing to business applications using Python, FastAPI, REST APIs, databases, and LLM integrations. Developed a CRM platform, an offline-first event management system, and AI-powered workflow automation, with practical experience applying technology to real business problems.

EDUCATION

FLAME University, Pune — B.Sc. Data Science & Economics Aug 2024 – Present
Current GPA: 8.37

Jawahar Navodaya Vidyalaya, Palghar — Secondary & Senior Secondary 2020 – 2024
Grade 12: 79% Grade 10: 93%

EXPERIENCE

Tata Trent Limited — IT Intern, Data Analytics & Technology May 2026 – July 2026

- Analyzed 1M+ retail transaction records using Power BI across customers, products, orders, stores, logistics, and financial data.
- Performed data cleaning, relationship modeling, DAX-based KPI development, and interactive dashboard creation.
- Contributed to CRM backend development using Python, FastAPI, REST APIs, SQLite, JWT authentication, and RBAC.
- Proposed and prototyped a Visual Merchandising AI Automation system using business rules and inventory data.

WageIndicator Foundation — Data Analytics & Visualization Intern Sep 2025 – Mar 2026

- Collected primary socio-economic data through structured online research and official sources.
- Validated and cleaned multi-country datasets to ensure analytical accuracy and consistency.
- Analyzed indicators including living wages, fertility rates, labour laws, and labour force participation.
- Designed Tableau dashboards to visualize regional and gender-based labour market trends.
- Interpreted dashboard insights to support data-driven research reporting and presentations.

Mazdoor Kisan Shakti Sangathan (MKSS) — Field Intern May 2025 – Jul 2025

- Conducted field research on social welfare schemes and rural governance across villages in Rajasthan.
- Collected and documented primary data through surveys, community interactions, and public hearings.
- Examined grassroots issues related to livelihoods, transparency, and access to entitlements.
- Drafted reports, case studies, and policy notes that supported advocacy and awareness initiatives.
- Contributed to organizing the Right to Food Convention, strengthening community participation.

YouTube Channel Creator — Self Project 2019 – 2023

- Built and managed an educational YouTube channel with 4,000+ subscribers and 401,000+ views.
- Monetized content while studying audience engagement metrics.
- Developed expertise in content strategy, video editing, digital marketing, and community building.

PROJECTS

OmniLink CRM — Customer Relationship Management Platform [\[GitHub\]](#) Jul 2026

- Contributed to a full-stack CRM platform integrating Customer 360, dashboards, loyalty, consent, and customer service.
- Developed backend modules using Python, FastAPI, REST APIs, JWT authentication, and role-based access control.
- Implemented customer profiles, membership, consent workflows, timelines, and audit logging with SQLite.

Karta Attendance System — Offline-First Event Manager [\[GitHub\]](#) Aug 2026

- Built an offline-resilient QR attendance platform with a Python/FastAPI backend and database integration.
- Implemented offline check-ins with local storage and automatic synchronization after network recovery.
- Developed backend APIs and an admin dashboard for attendance, university demographics, and event logistics.

WhatsApp AI Agent — LLM Workflow Automation [\[GitHub\]](#) Nov 2025

- Built an AI-powered WhatsApp assistant for converting natural-language messages into notes, reminders, and tasks.
- Integrated Python/FastAPI with Twilio WhatsApp API, OpenRouter LLMs, and Notion API.
- Automated message classification, task extraction, reminder handling, and synchronization with external services.

SKILLS

Programming & Backend:	Python, C++, SQL, FastAPI, REST APIs, API Integration.
Databases:	SQLite, PostgreSQL, Supabase.
AI & Automation:	LLM-based AI Tools, Prompt Engineering, Generative AI, Open-source LLMs (Hugging Face, LLaMA), OpenRouter, Workflow Automation.
Data & Analytics:	Power BI, Tableau, Excel, Pandas, NumPy, Matplotlib, Data Analytics & Visualization, Data Mining.
Tools & Platforms:	Git, GitHub, KoBoToolbox, Wix, Notion API, Twilio.
Media & Creative:	Video Editing (DaVinci Resolve, Filmora, CapCut), Content Marketing, Canva.

LEADERSHIP & VOLUNTEERING

Karta Initiative Mentor	Mentored undergraduates on academics, careers, and personal growth.
Right to Food Campaign	Executed accommodation and logistics operations for 100+ participants.
Mess Captain, JNV	Directed dining operations and budgeting for 400+ students.
Hospitality Volunteer	Managed guest relations during Kurukshetra cultural event.
Event Organization	Led university events, chess tournaments, and outreach programs.

ACHIEVEMENTS & HONORS

Digital Media	Monetized YouTube Channel (4,000+ Subs, 400K+ Views), Amazon Affiliate Marketing.
Awards	Karta Catalyst Scholar – Leadership and Academics; 100% Merit Scholarship at FLAME University; JNV Scholarship – Academic Excellence (Grades 9–12)
Sports	National-level chess player; regional volleyball and kabaddi representative.
Academics	Dean’s Honor recognition in first year for academic excellence.
